EN MOART NOS DEDICAMOS A LA FABRICACIÓN DE MOSAICOS DE PASTA, TERRAZO, GRANITO Y CANTOCRETO DE MANERA ARTESANAL, SOMOS UNA EMPRESA 100% MEXICANA QUE BRINDA SERVICIOS Y PRODUCTOS DE EXCELENTE CALIDAD.

MOART

MOSAICOS ARTESANALES

MEDIDA: 20 x 20 x 1.8 +/- 0.5 mm

25 piezas por m2

COMPOSICIÓN Y PRODUCCIÓN: El mosaico de pasta se compone de Cemento blanco, polvo de mármol, arena, cemento gris, pigmentos para cemento y agua. Estos componentes se mezclan, moldean y prensan. Después, el proceso de endurecimiento, fraguado y secado se hace de manera natural, al aire, sin utilización de hornos.

ESPESOR: 1.8 cm +/- 0.5 mm

PESO POR PZA: 1.3 kg

PESO POR M2: 32.5 kg

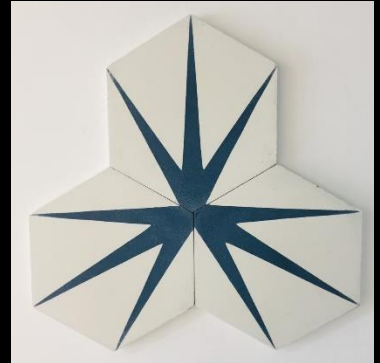

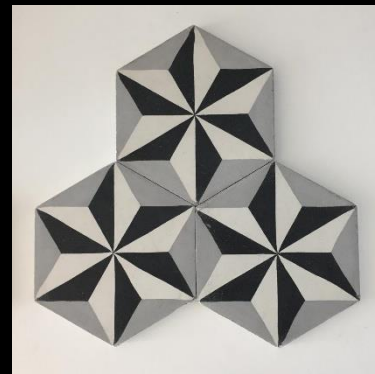

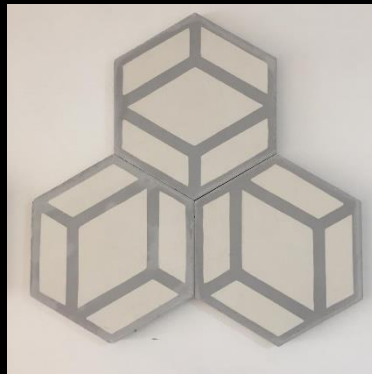

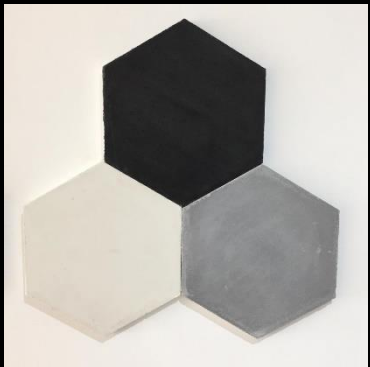

Tipo de uso: Ideal para decoración de espacios interiores y exteriores, cocinas, baños, salas, recamaras, terrazas, locales comerciales, muros, barras etc

MÉTODO DE PEGADO: El pegamento sugerido es pegamento marca Crest o algún otro pegamento para piso, el pegamento debe aplicarse de manera uniforme de no ser así corre el riesgo de romper las piezas por el hueco que quede por debajo de estas. Antes de comenzar la colocación deben sumergirse en agua las piezas para evitar que se despeguen. Una vez colocado debe protegerse hasta pulirlo o sellarlo para evitar que se manche (es muy fácil que se manche si no está pulido o sellado ya que es muy poroso y tiende a absorber todo lo que se le vierta encima).

MÉTODO DE PULIDO: Se debe pulir (Se le puede sacar brillo natural, jamás se debe utilizar maquina desbastadora ya que dañara su piso) o lijar hasta dejar un aspecto liso sin poros y se debe aplicar un sellador para piedra natural para darle un acabado fino.

JUNTEADO: Se junta con cemento blanco o cemento con color dependiendo del tono de mosaico y cuña para aplicar la junta en cada espacio y de esta manera evitar manchar el piso
